* NOTE: To find the appropriate repair kit and packing sets related to your pump, locate the pump model number in the table above. Match the number in the TECH REF column to that in the chart on the next page.

Always consult the OEM instruction sheet that came with your unit to determine the proper packing material compatible with the fluid being sprayed.

To order, contact your local
Paint Spray Equipment Dealer and ask for
Genuine Bedford Replacement Parts.

BEDFORD® Replacement Parts

TANK & CUP LID GASKETS

Manufactured from the highest quality Thiokol, Stratoprene, Rubber, Leather and Plastic compounds combining the best possible solvent resisting and elastic properties for maximum seal and long life. Thiokol gaskets provide maximum solvent resistance. More economical Stratoprene gaskets provide moderate solvent resistance and are excellent when used with water based materials.

TYPICAL PERFORMANCE FLOW CURVES

GENERAL PURPOSE SERIES

STANDARD MODEL

With same operating pressure and temperature range as the heavy duty series, this regulator is an economical unit where flow requirements do not exceed 80 SCFM.

1/4" inlet and outlet with two regulated 1/4" gauge ports.

REPLACES DEVILBISS PART NO.	BEDFORD PART NO.
HAR-505	26-1125

SERIES INSTALLATION MODELS

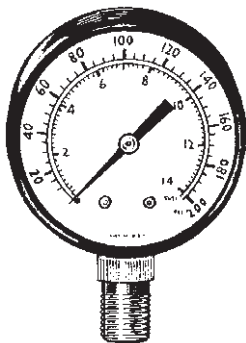

P/N 26-1119 has 3/8" inlet, two 1/4" unregulated ports, and 1/2" regulated outlet.

P/N 26-2328 has 1/4" inlet, 1/4" unregulated port, and two 1/4" regulated outlets.

Specifications same as standard model.

Oversized Metal Bowl	40°-180°

MINIATURE SERIES

These components are specifically designed for applications where a small economical unit is required. Especially useful on air tools, cylinders, valves, paint sprayers, and pressurized tanks.

MINI FILTER

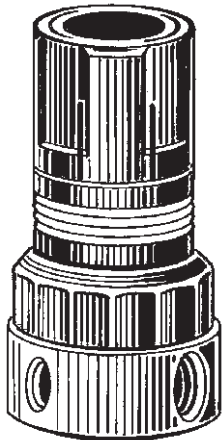

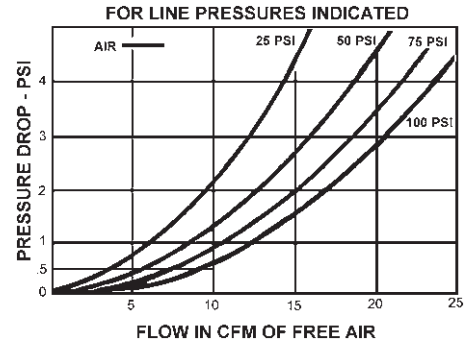

Two stage filtration removes airline scale, dirt and moisture. Has 20 Micron filter element, aluminum body, and shatterproof clear polycarbonate bowl. Connections are 1/4" and the bowl capacity is 1 oz.

SPECIFICATIONS

Flow 22.0 SCFM
Maximum Supply Pressure 150 PSI
Operating Temperature 40°-120° F
Height: 4" Dia: 1-9/16" Weight: 1/4 lb

PART NO.

25-720

MINI REGULATOR

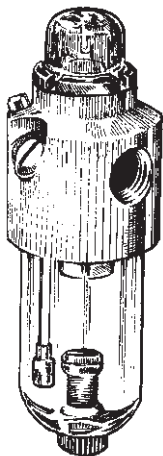

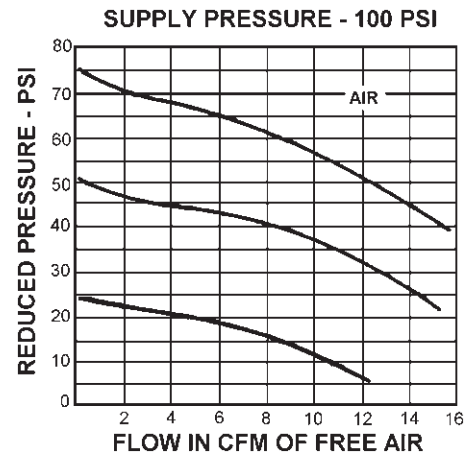

Relieving type regulator has aluminum body and acetyl spring cage and adjusting knob. 1/4" inlet and outlet ports with two 1/8" gauge ports for use with P/N 28-706 & 28-1358 gauges.

SPECIFICATIONS

Flow 16.0 SCFM
Maximum Supply Pressure 300 PSI
Output Pressure Range 0-125 PSI
Operating Temperature 40°-120° F
Height: 3" Dia: 1-9/16" Weight: 1/4 lb

PART NO.

26-710

MINI LUBRICATOR

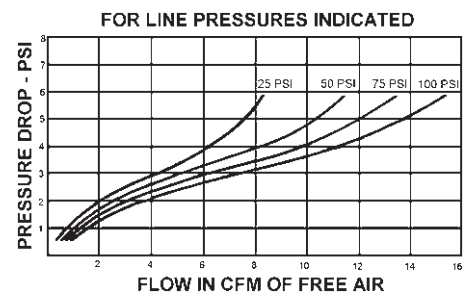

Unit has rugged aluminum body and shatterproof clear polycarbonate bowl and two large fill ports for quick filling. Connections are 1/4". 1 oz. bowl capacity.

SPECIFICATIONS

Flow 12.0 SCFM
Maximum Supply Pressure 150 PSI
Operating Temperature 40°-120° F
Height: 4-7/16" Dia: 1-9/16" Weight: 1/4 lb

PART NO.

27-730

MATERIAL CODE: NY - Nylon TE - Teflon VI - Viton LE - Leather

RESISTANCE CODE: 1 - Little or no effect 2 - Minor or moderate effect 3 - Severe Effect 0 - Not tested

● Recommended operating temperature not to exceed 160°F

▲ Precautions must be taken to keep moisture from permeating hose

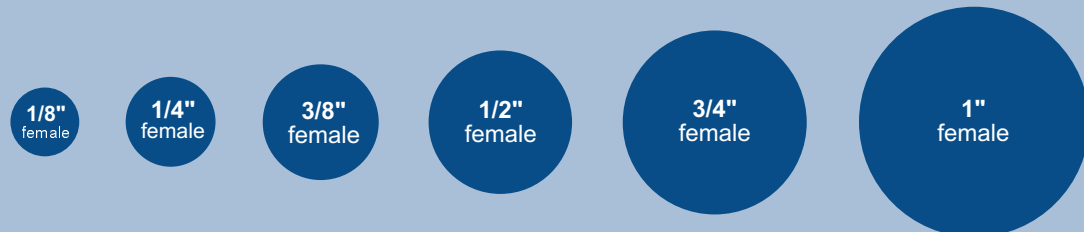

*The information given is based on research and experience and to the best of our knowledge is reliable.
However, we must emphasize that the chart should be used as a guide only.*

Pipe Thread Sizing Guide

To size a **Male NPT or NPS thread**, determine which of the guide circles below best represents the thread's **outside diameter**.

To size a **Female NPT or NPS thread**, determine which of the guide circles below best represents the thread's **inside diameter**.
