

Upgrade to U.S. Pharmaceutical Class VI Silicone...at a lower cost!

DUST COVER

The Newman Silicone Dust Cover is for use with containers transferring granulated pill compounds. The Dust Cover eliminates pill dust from escaping into the plant atmosphere making it a safer place for your employees.

The Newman Dust Cover is available in 9", 13" and 15" sizes, which are standard in the pharmaceutical processing facilities. Special sizes can also be made available as well.

The Newman Dust Cover is available at considerable savings but more importantly it is **USP Class VI certified and carries our USP Class VI certification for traceability.** YES, that's right...Savings and an upgrade from FDA to USP Class VI!

Why not demand on Newman Sanitary Gasket Dust Covers for your manufacturing facility.

Benefits of the new USP Class VI Dust Covers...

- eliminates dust particles in the atmosphere
- safer environment for employees
- meets USP Class VI certification
- money saving
