STRONG POINTS.**

BRONZE

Industrial Grade Spray Nozzle

MADE IN U.S.A.

MODEL S-151

HOSE ADAPTOR SIZE AND TYPE MUST BE SPECIFIED WHEN ORDERING

FEATURES

- **Variable Spray.** Adjusts from soft spray to solid stream by simply depressing the lever.
- **Specially formulated** rubber cover is resistant to a wide range of oils and chemicals, and has long-term weather resistant properties.
- **Replaceable** heavy-duty rubber cover protects both nozzle and surrounding equipment from dings and scratches.
- **Rear-mounted** lever eases operation on extended periods of use, and prevents cramping of the fingers.
- **Conserves water.** Upon release of the lever, operator is assured of drip-tight shut-off.
- **Heavy-Duty** bronze and stainless steel construction insure an extended life under severe service conditions. The S-151 was designed for harsh environments.
- **Swivel hose adaptor** allows hose to rotate 360° for easy handling. (Specify hose I.D.)
- **Stainless steel seats.** Long-lasting stainless steel seats are furnished on all bronze nozzles.
